12. Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s).

Continuation of 11. does NOT place the application in condition for allowance because: Regarding Applicant's argument that the Lee reference and the case law cited do not read on the claims, the examiner disagrees. It would have been obvious to modify the location of the switch since the location of the switch does not appear to be critical. Therefore, to move the switch front, back, left, right, up, or down would have been an obvious matter to one of ordinary skill in the art at the time of the invention as it does not change operation. One of ordinary skill in the art might prefer a certain switch location depending on a variety of factors, such as dexterity or eye coordination. These rebuttal arguments are to be considered incorporated into the Final rejection as additional motivational reasons.
